Where have you found Eurasian water-milfoil on this lake? Be specific.

At N45*36'34.7" X W089*38'18.3"

About 140 meters up from the dam on the north shore just off the dam side of the second dock from the dam.

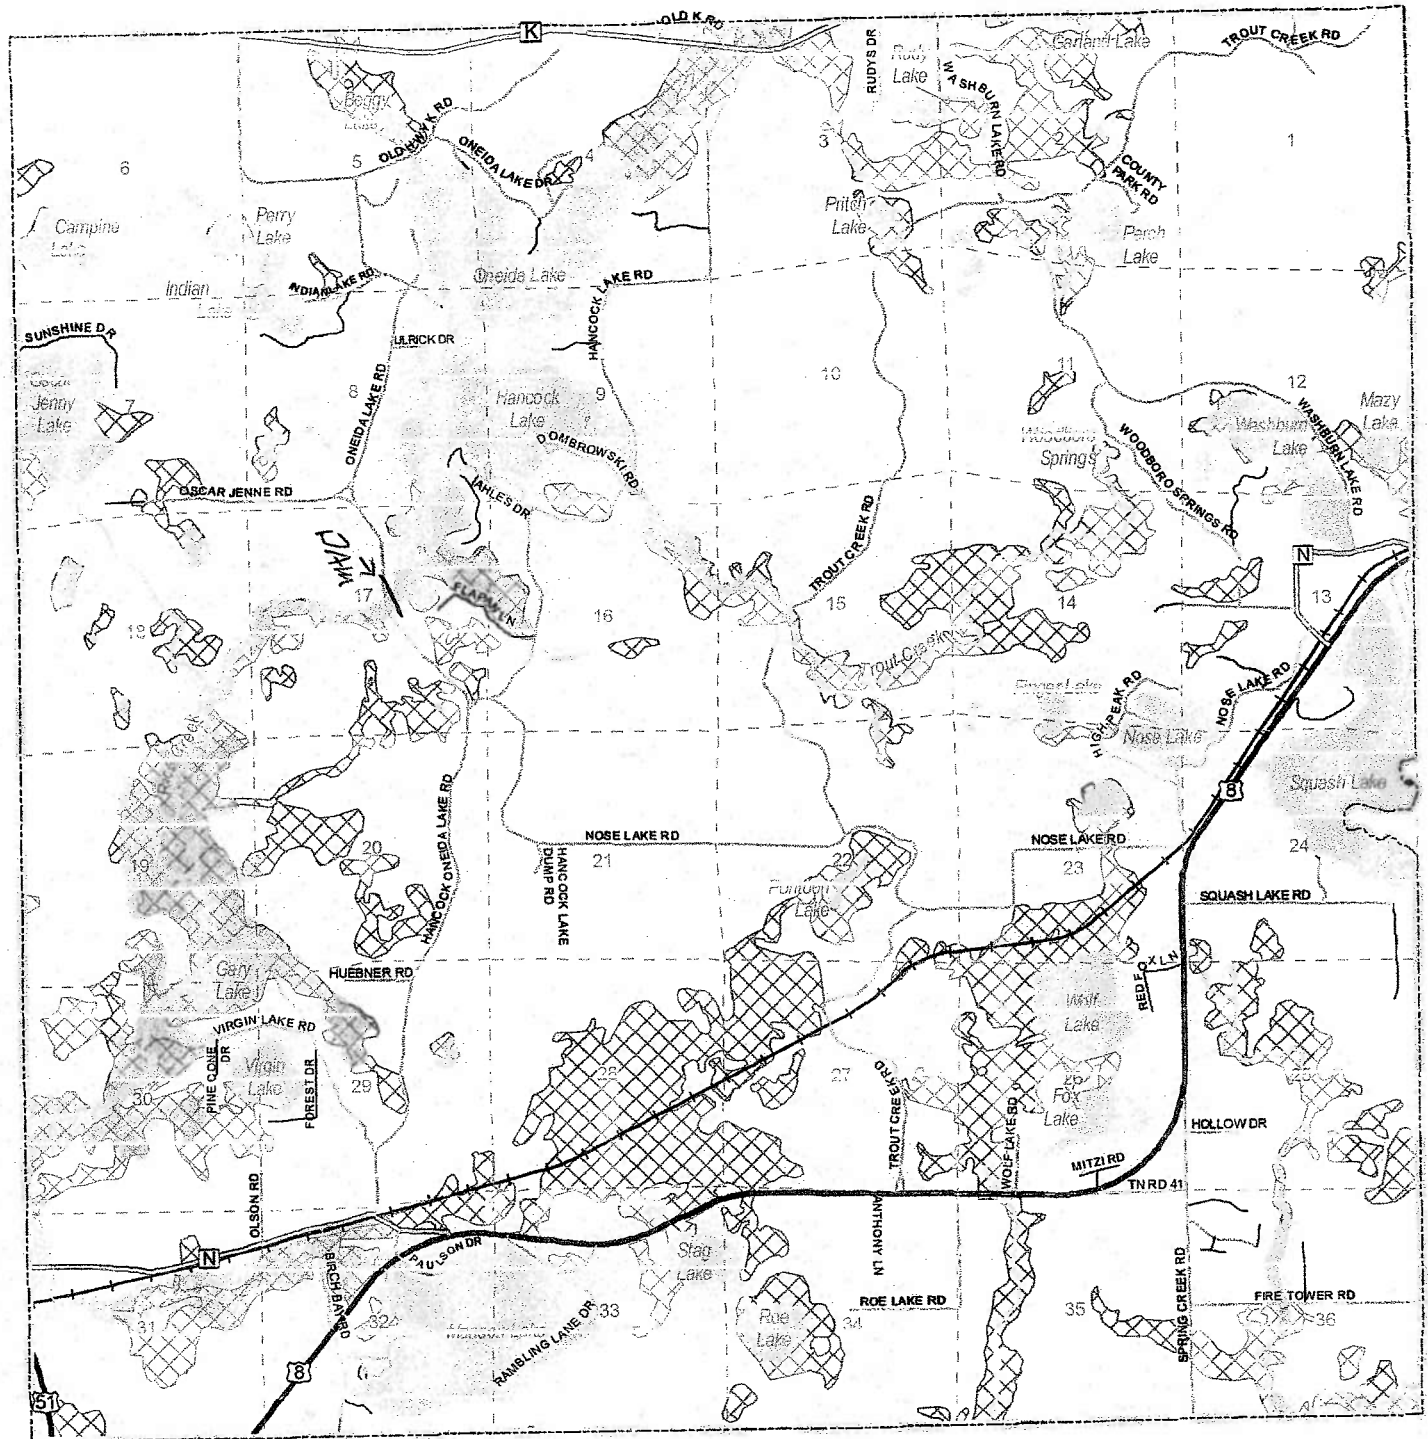

Approximately how large of an area does it occupy?

Looks to be a very small patch, did not through a rake to check deeper water.
