Date:	Revision:	Sheets Affected:
10/21/2011	Revised cabinet above microwave	4,9,11

Sales: BS
 Design: SP
 Checked: JW

Homeowner Notes:

- Existing cabinets to be cleaned out and ready for demolition or take-down and re-hanging prior to demolition.
- Any new light fixtures need to be purchased and on site prior to delivery drop date.
- Any new plumbing fixtures need to be purchased and on site prior to the delivery drop date. Since your new kitchen sink will be 40/60, please select a faucet with the hot and cold water in the handle.
- Any new appliances need to be purchased and on site prior to the delivery drop date.
- If any material choices were left to be determined at the end of the design appointment, they need to be made prior to the delivery drop date.
- Items not mentioned in this document will not be installed.

Contractor Notes:

- Use checklists on Sheet 3 to confirm all cabinets, accessories, and hardware have been delivered to the site. Notify office if any item is missing or damaged.
- FYI - there is no filler along wall with sink; however, according to design measurements, opposite wall is slightly longer so side walls should "flare out".
- Reinstall microwave to existing outside venting.
- Install cutlery tray in B15 to right of sink base. Install utility tray in B18 to left of range.
- Install door mount spice rack in W1836 to left of microwave.
- Install wall corner lazy susan in WDC2436 in corner. Center pole will need to be trimmed to fit.
- Install tray dividers in B12 to left of sink base.
- Install tip-out trays and door storage in SB36.
- Install single slide-out trash bin with lid in B15 to right of sink base.
- Install customer provided garbage disposal.
- Use filler to bring crown molding to ceiling. Use 6" filler pieces in place of TF384 shown on plans. See detail on Sheet 3.
- Install door and drawer hardware. Confirm location and orientation with homeowner.

Plumber Notes:

- Standard cap of kitchen lines and hook-up of sink, dishwasher, and/or ice-maker in refrigerator.
- Relocate waterline for refrigerator.

Electrician Notes:

- Standard house call to turn off electricity.
- Microwave circuit to be added to kitchen.
- Separate cooktop/oven being converted to range.
- Circuit for refrigerator to be added to kitchen.
- Install 3 outlets and 3 customer provided lights.

Painting Notes:

- There is no painting associated with this renovation.

Backsplash Notes:

- There is no tile backsplash associated with this renovation.

Flooring Notes:

- Make sure flooring between kitchen and adjacent rooms is level.

Cabinet Specifications:
