From Complexity to Simplicity
The Five WOWs of The One Page Planning and Performance System

Navigate to any plan with the click-thru organization chart. Each One Page Business Plan has five components that work together to describe the profit center, department, project or program being built, why it is being built, how it will be built, and the specific measurable results that will be accomplished.

Click on any Objective and a One Page Performance Scorecard™ opens. The scorecard shows actual, budget, forecast and last year actual, both graphically and quantitatively. This system uniquely links plans and performance reporting in a very simple, highly effective manner.

Imagine being able to click on any Planned Action in any business unit and view a concise progress report. This feature greatly simplifies progress reporting. Progress reports will never get lost in the mail again!

This system tracks the status and version of every manager's plan using a simple color system. Approved plans are green, drafts are yellow and un-posted plans are red. The status of every plan in your company or organization is obvious at a glance.

Click on any manager's name and display all of the manager's One Page Scorecards or Progress Reports. This feature facilitates the quick assessment of monthly, quarterly and year-to-date results and progress against plans.
Implementation is Easy and Can be Accomplished in as Little as 4 Weeks...

Business and corporate planning processes have changed little in the last thirty years. They remain highly complex, overly time consuming and very ineffective. CEOs and business owners complain their planning process takes too long and is of little value... and yet they have their management teams prepare a new one every year. Why not implement a results-based system that links planning, implementation, and accountability?
