

Mr. Microgravity's

Educator Drop Tower for classroom use

Bring microgravity into your classroom!

See how air bubbles, fluid blobs, and candle flames change in microgravity.

Show students what happens when gravity seems to 'go away' (but it doesn't really!).

Challenge students to think up and build their own microgravity demonstrations and experiments.

Demonstrate Newton's Laws.

Investigate how microgravity conditions are used in experiments on the International Space Station.

... and more!

A very important component of the drop tower is the booklet that explains the concepts of the demonstration devices and their relationship to forces & motions and microgravity science.

Shipping only to U.S.A.

**Please send questions by e-mail to:
00ug00@gmail.com
Those are zeroes, not O's in the address.**

The **assembled** Educator Drop Tower is ready to go and includes the drop box, camera, cables, demonstration devices, and the booklet.

For the Educator Drop Tower **kit of parts**, some assembly and fabrication is necessary using normal hand tools and power tools (e.g. drill).

For the Educator Drop Tower **basic kit of parts**, assembly and fabrication is necessary using normal hand tools and power tools (e.g. drill). This kit contains the drop box, camera, power supply, video cable and adaptor, and the booklet of instructions. The user will need to separately provide the demonstration devices.
