

## Easy Felt Vest for 3.8" Realpuki by Answer42

Here are 5 versions of a felt vest for Fairyland's Realpuki BJD.

The top 3 patterns differ only in the bottom front edges.

The bottom left pattern has shoulder seams instead of side seams for minimum sewing.

The bottom right pattern has the front in one piece and the opening in the back.

### Directions:

1. Trace and cut out vest pattern on felt using a fine tipped pen or marker for accuracy.
2. Use sharp scissors to cut inside your marked line.
3. Sew side seams together very close to the corners and edges. The seams should butt up against each other or nearly so when sewn.
4. Have fun.

### Notes:

There are no seam allowances. Other non-raveling materials could work for this pattern.

Feel free to decorate this vest! The vest is easier to decorate when flat. If machine sewing a border around vest, do so before cutting out the vest from felt.
