Maltese Safety, Education & Training offers all types of Fire, Safety, OSHA, EPA, DOT, required regulatory training with business risk assessment and site specific training needs customized to your location.

We also offer other services for business and industry that is both generic and custom to your operation.

Once choosing Maltese Safety, Education & Training, we are here to help you with compliance questions and program compliance long after the training is completed.

Our company was founded on the principals of good sound quality customer service. Our number one customer goal is to give the customer more than they expect at a reasonable price.

We specialize in site specific Fire, OSHA, EPA, DOT and other regulatory compliance training and management consulting.

We can handle the very small five (5) employee operations to the thousand (1000) employee or more twenty-four (24) hours seven (7) days a week operations.

We can offer training classes on shift and on-site to you and your employees where it is convenient to your operation.

Please take the time to look over our training classes. If you do not see a class or training that fits your companies needs, please feel free to contact Garry Marquardt, President.

Our instructors are accredited by National Fire Academy, State of Indiana, NFPA, American Society of Safety Engineers, National Safety Council.

We have extensive experience in:

- ✓ OSHA Citation Abatement
- ✓ EPA & State Environmental Citation Abatement
- ✓ Fire Inspections Abatement Plans
- ✓ Suspicious Fire Origin of Cause
- ✓ Explosion Cause Investigation
- ✓ Insurance Investigation Work
